

EMPLOYMENT NOTICE

The City of Manor is seeking a qualified applicant for the position of Construction Inspector.

The Construction Inspector I, II, and III will be under the direct supervision of the Public Works Director and will carry out all responsibilities by clearly established departmental policies and procedures, City codes and ordinances, and state and federal regulations; prepare reports for submittals.

Essential Functions:

NOTE: Regular attendance is considered an Essential Function for this position

Essential Functions may include, but are not limited to, the following:

- Must have a general knowledge of land development construction practices.
- Understand the general procedures for the installation of pavement and underground utilities.
- Ability to monitor street course density and moisture tests; prepare and maintain related inspection records.
- Ability to monitor water and wastewater pressure and leakage tests; prepare and maintain related inspection records.
- Perform daily inspections of all materials and workmanship of development and utility projects as assigned to ensure compliance with approved plans and city specifications. Ability to effectively communicate with utility providers, contractors, and project managers about required adjustments or identified deficiencies.
- Ability to read, understand, and be familiar with all approved construction plans and city specifications.
- Ability to identify and present possible solutions for project-related complications to project managers.
- Prepare daily reports entirely and accurately documenting all work performed before leaving the site.
- Attend preconstruction meetings to ensure a complete understanding of the project and inspection items.
- Ensure supervisors are informed of and approve any changes needed before field adjustments.
- May train and oversee less experienced Construction Inspectors, as requested.
- Participate in amending or updating construction standards and standard details; remain current regarding trends and changes in federal, state, and local regulatory practices.
- Assist with updating or developing process improvements to increase efficiency and effectiveness.
- Assist with site investigations and the implementation of the MS4 program.
- Ability to utilize daily city-issued computer equipment for plan review and documentation.
- Ability to update and maintain city records related to inspections, including weekly and monthly reporting as required by supervisor.
- Previous knowledge of street, sidewalk, and concrete construction methods and proper safety practices, procedures, and regulations applicable to the work being performed.

- Other duties as assigned.

Working Conditions:

The work condition characteristics described here are representatives of those an employee encounters while performing the essential functions of this position. Reasonable accommodation may be made to enable individuals with disabilities to perform essential functions.
